Data Sheet: Bar & Chain Oil

Product Application:

Golden West Bar & Chain oil is 100% virgin mineral oil incorporated with improved additives especially designed for to day's high speed chain saws in all weather conditions. This product acts as a solid film lubricant giving boundary lubrication under apparently dry lubricant conditions and a rust inhibitor to protect bar and chain during storage. It has extreme pressure additives with shock absorbing properties that reduce friction and increase chain life up to 65%.

Golden West Bar & Chain Oil demonstrates a special penetrating ability to give instant chain lubrication after start-up, plus a high-tac/no-sling additives to keep lubricant on the chain. This product is manufactured for industrial, commercial and residential chain saws. It meets the needs of the forest products industry under the most adverse operation conditions.

Product Specifications		
	Summer	Winter
Viscosity, SUS @100°F	630	300
Flash Point @ °F	425	410
Pour Point @ °F	-10	-20
Color	4	4

These values are representative of current production. They may vary within modest ranges.
